Portfolio: [guilhermeduarte.dev](https://guilhermeduarte.dev)

## EDUCATION

---

**Universidade do Minho** -- Braga, Portugal *Graduated September 2026*  
BSc in Computer Science (Licenciatura em Ciencias da Computacao)

## EXPERIENCE

---

**CoderDojo** -- Coding Mentor | Braga, Portugal *Sep 2025 -- Sep 2026*

- Taught programming to children as part of a volunteer team, adapting explanations to different learning paces and collaborating to plan and run weekly sessions.

## PROJECTS

---

**CatchLog API** -- Fishing Log REST API *C#, ASP.NET Core, PostgreSQL, Docker, Entity Framework Core*  
[github.com/TurnGui/catchlog-api](https://github.com/TurnGui/catchlog-api)

- REST API for logging fishing catches, built with ASP.NET Core Web API, Entity Framework Core, and PostgreSQL; JWT authentication with BCrypt password hashing.
- Layered architecture (Controller, Service, DbContext) with DTOs, dependency injection, and EF Core migrations; containerized with Docker Compose.
- Unit tests with xUnit and EF Core InMemory; follows clean separation of concerns with named exceptions and a global error handler.

**Splitwise API** -- Expense-Splitting REST API *Java, Spring Boot, PostgreSQL, Docker*  
[github.com/TurnGui/splitwise-api](https://github.com/TurnGui/splitwise-api)

- REST API for group expense splitting with JWT auth, three splitting strategies (equal, percentage, exact), and a greedy debt-simplification algorithm.
- Unit and integration tests with JUnit 5 and Mockito; containerized with Docker Compose, deployed to Railway with CI.

**SpotifUM** -- Fullstack Music Streaming Platform *Java, Spring Boot, React, PostgreSQL, Docker*  
[github.com/TurnGui/spotifum](https://github.com/TurnGui/spotifum)

- Evolved a Java CLI into a fullstack app: Spring Boot REST API with JWT auth and JPA on the backend, React frontend deployed on Render and Vercel.
- OOP design patterns (Singleton, Builder, Prototype, Strategy); 11 unit tests with JUnit 5 and Mockito, GitHub Actions CI pipeline.

## TECHNICAL SKILLS

---

**Languages:** Java, C#, SQL, C, Python

**Frameworks & Testing:** Spring Boot, ASP.NET Core, Entity Framework Core, JUnit 5, xUnit, Mockito

**Databases:** PostgreSQL, MySQL, H2

**Tools:** Docker, Git/GitHub, Maven, Linux, VS Code, IntelliJ IDEA

## LANGUAGES

---

**Portuguese** (Native) | **English** (Fluent)

## CERTIFICATIONS

---

- IEEE UMinho Student Branch -- "Criacao de Websites" Web Development Mini-Course (March 2025)
