Portfolio: guilhermeduarte.dev | github.com/TurnGui

EDUCATION

Universidade do Minho -- Braga, Portugal *Graduated September 2026*
BSc in Computer Science (Licenciatura em Ciências da Computação)

EXPERIENCE

CoderDojo -- Coding Mentor | Braga, Portugal *Sep 2025 -- Sep 2026*

- Taught programming to children as part of a volunteer team, adapting explanations to different learning paces and collaborating to plan and run weekly sessions.

PROJECTS

Splitwise API -- Expense-Splitting REST API *Java, Spring Boot, PostgreSQL, Docker*

github.com/TurnGui/splitwise-api

- REST API for group expense splitting with JWT auth, three splitting strategies (equal, percentage, exact), and a greedy debt-simplification algorithm.
- Unit and integration tests with JUnit 5 and Mockito; containerized with Docker Compose, deployed to Railway with CI.

SpotifUM -- Fullstack Music Streaming Platform *Java, Spring Boot, React, PostgreSQL, Docker*

github.com/TurnGui/spotifum

- Evolved a Java CLI into a fullstack app: Spring Boot REST API with JWT auth and JPA on the backend, React frontend deployed on Render and Vercel.
- 11 unit tests with JUnit 5 and Mockito, GitHub Actions CI pipeline.

SportOrg -- Relational Database for a Multi-Sport Competition *MySQL, SQL*

github.com/TurnGui/sportorg-database

- Designed and normalized (3NF) a MySQL schema for a university multi-sport competition; role-based access control and GitHub Actions CI to verify schema on every push.

TECHNICAL SKILLS

Languages: Java, SQL, C, C#, Python

Frameworks & Testing: Spring Boot, Spring Data JPA, Spring Security, JUnit 5, Mockito

Databases: PostgreSQL, MySQL, H2

Tools: Docker, Git/GitHub, Maven, Linux, VS Code, IntelliJ IDEA

LANGUAGES

Portuguese (Native) | **English** (Fluent)

CERTIFICATIONS

- IEEE UMinho Student Branch -- "Criação de Websites" Web Development Mini-Course (March 2025)
